5.	Title of the Project	Smart PDF Chatbot
6 .	Abstract	Reading lengthy PDF documents like manuals, reports, or research papers can be time-consuming . This project presents a Smart PDF Chatbot that allows users to upload PDF files and interact with them conversationally. By asking questions, users receive instant, accurate answers powered by AI. The system also includes voice interaction for accessibility, a multi-PDF comparison tool , and automatic conversion of tabular data into interactive dashboards for analysis. Together, these features simplify document navigation and make complex information easy to access.
